

5.7-5.8 Quiz Review

Name \_\_\_\_\_

Objective: Use Pythagorean Theorem and Triples to solve for a missing side.

Objective: Determine if the following side lengths make a triangle. If so, classify as right, acute, or obtuse.

7) 9, 11, 15

8) 15, 20, 25

9) 7, 12, 19

Objective: Use the special right triangle ratios to solve for the missing sides.

Objective: Simplify the radical.

18)  $\sqrt{50}$

19)  $2\sqrt{128}$

20)  $\sqrt{72}$
